

#1002

Telephone

All dimensions are actual size.

- Bleed Line**
All background artwork should extend to this line (0.1" outside the Die Line)
- Die Line**
Actual Magnet Shape
- Imprint Area**
All important text/logos/info need to stay inside this line (0.1" inside of the Die Line)

STOCK ART

COMMENTS:

All raster-based artwork (JPEG, TIFF, EPS, PSD, etc.) should be at least 300 dpi. When sending vector artwork (Adobe Illustrator preferred when possible) please convert all type to paths or outlines or include the printer and screen font files.

FACTS:

A practical telephone was actually invented independently by two men working in the United States, Elisha Gray (1835-1910) and Scottish-born Alexander Graham Bell (1847-1922). Incredibly, both men filed for a patent on their designs at the New York patent office on February 14, 1876, with Bell beating Gray by only two hours!
