# #929
Key
All dimensions are actual size.

Bleed Line
All background artwork should extend to this line (0.1˝ outside the Die Line)

Die Line
Actual Magnet Shape

Imprint Area
All important text/logos/info need to stay inside this line (0.1˝ inside of the Die Line)

STOCK ART

1.779 in.

2.533 in.

COMMENTS:

All raster-based artwork (JPEG, TIFF, EPS, PSD, etc.) should be at least 300 dpi. When sending vector artwork (Adobe Illustrator preferred when possible) please convert all type to paths or outlines or include the printer and screen font files.

FACTS:

When you talk about "keying" you refer to the size of the pin tumblers in the lock as compared to the depth of the cuts on the key. When the key with the proper combination of cuts is put into the lock with that same combination of pins, everything lines up allowing you to turn the plug in the cylinder thereby retracting the bolt or latch.
