STOCK ART

COMMENTS:

All raster-based artwork (JPEG, TIFF, EPS, PSD, etc.) should be at least 300 dpi. When sending vector artwork (Adobe Illustrator preferred when possible) please convert all type to paths or outlines or include the printer and screen font files.

FACTS:

"The strongest teeth in the world" belong to John Massis of Belgium. He proved this by pulling two Long Island Railroad passenger cars weighing 80 tons along the rails with a rope held on a bit between his teeth. Always remember that your teeth are not a tool, and should not be used for anything except eating food.
