All background artwork should extend to this line (0.1" outside the Die Line)
- Die Line**
Actual Magnet Shape
- Imprint Area**
All important text/logos/info need to stay inside this line (0.1" inside of the Die Line)

FACTS:

The largest Heart-Shaped black diamond is the Gruosi Diamond weighing in at 115.34 carats. Received rough in 1998 from India and weighing 300.12 carats, it was originally planned to have an oval shape, but as cutting progressed, the material of the stone proved extremely fragile and very difficult to work. It took three years to cut it.
